

Dimitris Liaropoulos

IT Support / Desktop Technician

Kifisia, Athens · 6987899530 · dimliaro@hotmail.com · linkedin · github

Profile

Computer Science graduate (AUEB, 2025) with hands-on PC, laptop and MacBook repair experience from military IT service, electronics retail and independent work. Three years in retail taught me to explain technical problems clearly and stay calm. Looking for a Helpdesk, Desktop Support or junior System/Network Admin role in Athens.

Technical skills

- **Hardware:** PC assembly and upgrades (RAM, SSD/NVMe), disassembly, cleaning and thermal paste, component diagnosis; desktops, laptops, MacBooks, consoles, printers and peripherals
- **Operating systems & software:** Windows installs, upgrades and reinstalls, BIOS/UEFI configuration and password reset, drivers and software, Active Directory (users, password resets, groups), basic Linux
- **Networking:** routers, Wi-Fi troubleshooting, IP configuration on wired LANs, Ethernet cable repair, smart and IoT devices
- **Scripting & tools:** Python automation (daily job-alert script: API → SQLite → email), SQL, Git/GitHub, Excel, Google AppSheet, Docker (basic)
- **Languages:** Greek (native), English (fluent)

Experience

Independent IT Support & PC Building (friends and family) · Athens · 2021 – present

- Repair, clean and upgrade desktops, laptops, MacBooks and handheld consoles (RAM, SSD/NVMe, thermal paste) and assemble PCs from components
- Reinstall Windows and software, recover slow machines, and set up routers, Wi-Fi, smart home devices, printers and peripherals

IT Support (military service) · Hellenic Army, Research & Informatics Corps · Aug 2025 – Apr 2026

- Built an IT asset inventory in Google AppSheet: each workstation's user, specs, OS, BIOS setup and last check
- Managed Active Directory users: new accounts, password resets and security groups
- Set IP addresses on the wired LAN (no Wi-Fi), repaired Ethernet cabling, saw server setup
- Upgraded legacy Windows PCs, migrated software, swapped drives and RAM, re-pasted CPUs
- Jan – Apr 2026: transferred to Ministry of Defence HQ (Pentagon)

Player Data & Social Media Coordinator · GamePlan Digital Football Agency · Jan 2026 - Sep 2026

- Maintained player databases in Excel for several agencies and produced match info packages and social media content

QA Automation Trainee · Intelligencia.ai · May 2019 – Aug 2019

- Wrote automated BDD tests (Cucumber.js / Gherkin) for the company's React web app and reported bugs to the developers

Sales Consultant · Kotsovolos · Oct 2020 - Nov 2023

- Advised customers on laptops, PCs, peripherals, TVs, smartphones, tablets, smart home and Wi-Fi solutions; set up display PCs and laptops
- Regularly assisted the in-store technician with device diagnostics, setup and repairs
- Handled customer requests, returns and after-sales issues in a high-traffic store

Education & training

- **BSc Computer Science** — Athens University of Economics and Business, 2025
- **AI Knowledge Engineering with Data** — Accenture × Code.Hub bootcamp, 2026
- **Anthropic Academy, Databricks Academy** — in progress

Hardware & repair projects

- **Game Boy Advance SP:** traced a no-power fault with a multimeter to a blown fuse (F2)
- **Game Boy Color:** revived a dead console by cleaning the board with isopropyl alcohol
- **Logitech MX Master 2S:** freed the thumb button by loosening an internal screw
- **Recycled-parts PC:** built my everyday PC from salvaged, tested components
